Mercedes-Benz USA Announces Pricing for new Mercedes-AMG GT 63 PRO 4MATIC+

Atlanta. The 2025 Mercedes-AMG GT 63 PRO 4MATIC+ is the most dynamic model in the AMG GT portfolio, offering an even sportier driving experience on the street and the racetrack. Arriving at U.S. dealerships this spring, starting from \$195,900¹, the new coupe features a specially tuned engine, enhanced cooling, further developed aerodynamics and extensive standard equipment optimized for performance.

A Handcrafted AMG 4.0L V8 biturbo elevated to 603 hp and 627 lb-ft delivers powerful acceleration and outstanding performance. Standard AMG ACTIVE RIDE CONTROL suspension with active roll stabilization, active rear axle steering and AMG Performance 4MATIC+ fully variable all-wheel drive further contribute to the exceptional driving dynamics.

The AMG GT 63 PRO also features a robust cooling package to support overall performance on track. This includes active cooling for the AMG Performance 4MATIC+ all-wheel drive system, as well as special measures for the underbody and brake cover plates to optimize airflow to the standard AMG High Performance Ceramic Composite Braking System.

A unique front fascia with additional carbon fiber air deflectors, along with the AMG Carbon Fiber Package, AMG Aerodynamics Package and AMG Extended Night Package are fitted standard to provide an even more aggressive look for the high performance coupe. Customers can personalize the vehicle's exterior with a variety of paints, including the exclusive new hue MANUFAKTUR Green Hell Magno. 21-AMG Forged Split 5-Spoke Wheels are available in two optional finishes, in addition to the standard new Matte Grey finish exclusive to the AMG GT 63 PRO.

Inside, standard AMG Performance Seats in Nappa leather underscore the vehicle's dynamic character. Customers can add "+2" folding rear seats at no additional cost. A range of additional upholstery choices are optionally available, including new MANUFAKTUR Signature Nappa leather in conjunction with the MANUFAKTUR Interior Package. An AMG PERFORMANCE steering wheel is offered standard in Nappa leather/microfiber, as well as in optional Nappa leather or Nappa leather/carbon fiber design. A diverse selection of interior trims, from AMG Carbon Fiber to open-pore woods, provide further opportunity for personalization.

¹ Above pricing excludes \$1,150 destination and delivery charge
