Mercedes-Benz USA Announces Pricing for the all-new Mercedes-AMG E 53 HYBRID

Atlanta. The 2025 Mercedes-AMG E 53 HYBRID is the latest plug-in hybrid model from Mercedes-AMG. It combines exceptional performance and driving dynamics with the efficiency of a 42-mile all-electric range, according to EPA certification¹. The new performance hybrid arrives at U.S. dealerships this fall, starting from \$88,000².

An AMG-enhanced 3.0-liter inline six-cylinder turbocharged engine and permanently excited synchronous electric motor in the all-new AMG E 53 HYBRID provide a combined system output of 577 hp (604 hp with optional RACE START³). The powerful hybrid powertrain and standard AMG Performance 4MATIC+ fully variable all-wheel drive enable impressive acceleration from 0-60 mph in as little as 3.7 seconds (with optional RACE START³). Standard AMG RIDE CONTROL suspension with adaptive adjustable damping and active rear-axle steering also contribute to the outstanding dynamic driving experience.

The AMG DYNAMIC PLUS Package allows customers to further elevate the performance of the AMG Sedan. The optional package introduces an AMG High Performance Composite Brake System at the front with larger 15.4-inch brake discs and red six-piston calipers, electronically controlled AMG limited-slip rear differential, dynamic engine mounts, RACE START, elevated top speed and AMG Performance Steering Wheel in Nappa leather/microfiber.

Customers can personalize the exterior of the AMG E 53 HYBRID with 12 available paint finishes, including four MANUFAKTUR hues, 20- and 21-inch AMG wheel designs, and three optional exterior design packages – AMG Night Package, AMG Night Package Plus and AMG Exterior Carbon Fiber Package.

Opportunities for individualization also extend to the interior with MB-Tex and Nappa leather upholstery choices, AMG Performance steering wheel in multiple finishes and the optional AMG Performance Seat Package. Customers can choose from a number of interior trims, in addition to the new, standard AMG Illuminated Natural Grain Grey Ash Wood – exclusive to the AMG E 53 HYBRID. The available MBUX Superscreen Package features a 12.3-inch front passenger display with privacy function, along with a selfie and video camera for use when the vehicle is stationary.

¹ EPA testing follows SAE Recommended Practice J1711, June 2010, "Recommended Practice for Measuring the Exhaust Emissions and Fuel Economy of Hybrid-Electric Vehicles, Including Plug-in Hybrid Vehicles," with some exceptions. [EPA Plug-In Hybrid Vehicle Test Procedure](#)

² Above pricing excludes \$1,150 destination and delivery charge

³ RACE START is available with the optional AMG DYNAMIC PLUS Package

Trim Levels at a Glance

Standard Features – starting at \$88,000 ⁴	Exclusive Trim – starting at \$90,450 ⁴	Pinnacle Trim – starting at \$92,150 ⁴

Technical Specs at a Glance

Engine	AMG-Enhanced 3.0L Inline-6 Turbo with P2 Plug-In Hybrid System
Combined system output	577 hp / 604 hp with optional RACE START
Combined system torque	553 lb-ft
Output, combustion engine	443 hp
Torque, combustion engine	413 lb-ft
Output, electric motor	161 hp
Torque, electric motor	354 lb-ft
Charging capacity	AC: 9.6 kW / DC: 60 kW
Battery capacity	21.2 kWh (usable)
Acceleration 0-60 mph (est.)	3.9 sec / 3.7 sec with optional RACE START
Top speed (electronically limited)	155 mph / 174 mph with AMG DYNAMIC PLUS Package
Electric range ⁵ (EPA)	42 mi
Fuel economy – gas + electric ⁵	54 / 65 / 59 MPGe (city / highway / combined)

⁴ Above pricing excludes \$1,150 destination and delivery charge

⁵ EPA testing follows SAE Recommended Practice J1711, June 2010, "Recommended Practice for Measuring the Exhaust Emissions and Fuel Economy of Hybrid-Electric Vehicles, Including Plug-in Hybrid Vehicles," with some exceptions. [EPA Plug-In Hybrid Vehicle Test Procedure](#)
