Limited and highly exclusive: Mercedes-AMG GT 63 PRO 4MATIC+ “Motorsport Collectors Edition”

- Special model limited to 200 units worldwide
- Exclusive paintwork with intricate, hand-finished star pattern and PETRONAS-colored accents
- Distinctive interior design with unique contrast stitching
- Extensive standard equipment includes custom AMG car cover

Affalterbach. As part of the Formula 1™ Singapore Grand Prix, Mercedes-AMG presents the highly exclusive 2025 AMG GT 63 PRO 4MATIC+ “Motorsport Collectors Edition.” With numerous unique design elements and details, it creates a close link to the Mercedes-AMG PETRONAS F1 Team. Even the Obsidian Black Metallic paint is inspired by the team's current Formula 1™ race car. The same applies to the hand-painted star pattern with silver Mercedes stars that adorn the side and rear of the vehicle and the PETRONAS-colored accents that extend from the front fenders over the beltline to the roof. The front splitter, air inlet flaps of the front fascia, side sill panels and rear diffuser also feature PETRONAS-colored accents.

The 21-inch AMG forged split-spoke wheels are finished in black with PETRONAS-colored rim flanges. The striking wheels are fitted standard with Michelin Pilot Sport Cup 2 R tires (295/30 ZR 21 at the front and 305/30 ZR 21 at the rear). In addition, an AMG carbon ceramic high performance braking system with six-piston fixed calipers and 16.5-inch brake discs at the front and single-piston floating calipers at the rear is equipped standard.

The AMG Aerodynamics Package and AMG Exterior Carbon Fiber Package, with front splitter, side sill trims, rear diffuser and fixed rear wing in high quality carbon fiber, underscore the special model's connection to motorsport. The AMG Extended Night Package further elevates the unique exterior with darkened radiator grille, model badging and Mercedes star at the rear of the vehicle. An AMG fuel filler cap in Silver Chrome also emphasizes the special nature of the vehicle.

PETRONAS-colored interior elements

Numerous PETRONAS-colored accents are highlighted throughout the interior. The standard AMG Performance seats feature black Nappa leather/microfiber upholstery with PETRONAS-colored stitching and headrests with an embossed AMG crest. AMG carbon fiber interior trim elements compliment the heated AMG Performance steering wheel in Nappa leather/microfiber with PETRONAS-colored stitching. This exclusive contrast stitching is also showcased on the door panels, instrument panel and center console. Another unique detail is the AMG door sills finished in black with PETRONAS-colored illumination. The center console features a “1 out of 200” badge, underscoring the exclusivity of the special model.

A Burmester® High-End 3D Surround Sound System, with 15 speakers and 1,170 watts of system power, is among the extensive standard equipment for this special model. The Driver Assistance Package, 360-degree camera, MBUX Interior Assistant, head-up display and GUARD 360° vehicle monitoring are also equipped

standard. AMG TRACK PACE records a wealth of data when driving on the racetrack.

Each Mercedes-AMG GT 63 PRO 4MATIC+ "Motorsport Collectors Edition" also includes a custom, edition-specific AMG indoor car cover constructed with a breathable, tear-resistant synthetic outer fabric and antistatic flannel inner fabric.
