

Quick Reference Guide

2024 GLC Coupe

Models & MSRP

- Mercedes-Benz GLC300 4MATIC Coupe \$TBA* arriving at U.S. dealers late 2023

**above prices exclude \$1,150 destination & delivery charge*

What's New for MY23

- Freestanding 12.3" digital instrument panel and all-new 11.9" central touchscreen multimedia display completes progressive and modern interior design. Adopted from the S-Class, its portrait orientation is particularly advantageous for full-screen navigation, further enhancing the driver experience
- Redefined dimensional concepts (increased length by 1.2" allow for increased room in the interior cabin along with additional 1.6 cu-ft of trunk space behind second row seats and 3.1 cu-ft more with second row seats folded down)
- Improved aerodynamics (Cd = 0.27 compared to predecessor at Cd = 0.30)
- New-generation Mercedes-Benz User Experience (MBUX) infotainment system with advanced Voice Control ("Hey Mercedes") and significantly more processing power compared to the previous version of MBUX, and available MBUX Augmented Video for Navigation
- New exterior paint, upholstery, trim and wheel options
- New Transparent Hood available
- The dynamically designed suspension system of the new GLC Coupe is based on a new four-link front suspension and a multi-link independent rear suspension mounted to a subframe. The standard sport suspension and variable steering ratio also contribute to the vehicle's agile handling.

GLC300 4MATIC Coupe Standard Feature Highlights

- New-generation MBUX Infotainment system with Voice Control, including AI Natural Language Understanding and Keyword Activation ("Hey Mercedes")
- New 11.9" Center Touchscreen Display & 12.3" Digital Instrument Cluster
- AMG Line Interior and Exterior
- Transparent Hood
- Wireless Smartphone Integration with Apple CarPlay and Android Auto
- Heated Front Seats with Memory and Lumbar Support
- Inductive Wireless Charging & NFC Pairing
- Burmester® 3D Surround System with Sound Personalization and Music Streaming
- Panorama Sunroof
- Adaptive Highbeam Assist
- LED Headlamps and Taillamps
- Blind Spot Assist
- Heated Front Seats
- Power Front Seats with Driver Memory
- Multifunction Leather Steering Wheel with Touch Control Buttons
- 19" Wheels
- DYNAMIC SELECT

- KEYLESS-START® and KEYLESS-GO®
- 64-Color Ambient Lighting with Illuminated Door Sills
- Dual-Zone Climate Control
- Cruise Control
- Power Liftgate
- SiriusXM® Satellite Radio
- 40/20/40 Split-Folding Rear Seats
- Rear Cross-Traffic Alert
- PARKTRONIC with Active Parking Assist
- Surround View System
- Active Brake Assist
- Adaptive Braking Technology with Hill-Start Assist and Brake HOLD feature
- Crosswind Assist
- ATTENTION ASSIST®
- PRE-SAFE® System

GLC 300 4MATIC Coupe Optional Feature Highlights

- PARKTRONIC with Active Parking Assist
- Surround View System with Guard 360°
- Driver Assistance Package
- Active Distance Assist DISTRONIC
- DIGITAL LIGHT Intelligent Lighting System
- MB Navigation
- Dashcam
- Augmented Video for Navigation
- DIGITAL Light with Projections
- Night Package
- Heated rear seats
- Ventilated front seats
- Heated Steering Wheel
- Head-Up Display
- Advanced USB Package
- Brushed Aluminum Running Boards
- Trailer Hitch – Class II
- Rear Side Airbags

GLC Technical Feature Highlights

- **48-volt on-board electrical system technology** (standard): The engines found in the GLC 300 and GLC 300 4MATIC are supplemented with a powerful and efficient Integrated Starter Generator (ISG). This integrated electric motor system assists the combustion engine by adding up to 23 hp and 148 lb-ft of torque for short periods of time. The ISG also assists when accelerating, making driving without the combustion engine turned on possible ("sailing"), and supplies the battery with power by means of high-efficiency recuperation. By doing so, it makes fuel savings possible that were previously the exclusive domain of high-voltage hybrid technology.
- **Mercedes-Benz User Experience** (MBUX; standard): A revolutionary multimedia system featuring innovative technology based on Artificial Intelligence and an intuitive operating system, MBUX is pioneering a new level of in-car experience. The system can be operated by a new generation of Voice Control, the center touchscreen, and/or by the Touch Control Buttons on the steering wheel. The system has learning capabilities and intelligent Voice Control with Natural Language Understanding and activates upon a verbal cue of "Hey Mercedes."
 - **Augmented Video for Navigation** (optional): When the navigation function is active, a video image of the surroundings is enhanced with arrows or house numbers automatically superimposed directly onto the image in the media display.

- **Transparent Hood:** The GLC 300 4MATIC Coupe offers a "transparent hood": when the off-road mode is active, the central display shows a virtual view under the front of the vehicle, including the front wheels and their steering position. The view is composed of the images from the 360-degree camera. There are two views: under the vehicle and looking ahead. At speeds up to 5 mph the "transparent hood", i.e. the view under the vehicle, is shown. From 5 to 12 mph the system shows the view ahead. The camera image is switched off at higher speeds.
- **Systems:** The GLC Coupe receives the latest in driver assistance technology including intelligent hands-off detection. The Driver Assistance Package includes:
 - **Active Distance Assist DISTRONIC®** is an adaptive cruise control system that is able to automatically adjust your set speed for traffic ahead
 - **with Route-Based Speed Adaptation**, the vehicle is able to reduce the speed in anticipatory mode by referencing map data ahead of curves, junctions, roundabouts, toll booths and exit roads
 - **Active Steering Assist** generates steering torque which helps the driver to stay in the center of the lane on straight roads and slight bends, taking its guidance from vehicles ahead and lane markings
 - **with Active Emergency Stop Assist**, which brakes the vehicle to a stop in a controlled manner when the system recognizes that the driver is distracted for a longer period or cannot intervene in vehicle control
 - **and Active Lane Change Assist**, which assists the driver in a convenient and cooperative manner when making lane changes
 - **Active Brake Assist with Cross-Traffic Function** is able to help the driver avoid impending collisions with vehicles ahead, even stationary or crossing vehicles and pedestrians, if the driver fails to take action quickly enough
 - **Active Speed Limit Assist** automatically adapts the vehicle's speed to identified speed limits in conjunction with the embedded navigation
 - **Active Blind Spot Assist** is able to provide the driver with a visual alert, plus an audible alarm when a turn indicator is activated, to warn the driver if another vehicle is detected in the blind spot area. It can also help avoid a collision by single-sided braking if a lane change is still attempted with an obstacle in the blind spot
 - **Active Lane Keeping Assist** is able to warn the driver by means of vibrations of the steering wheel when the vehicle is unintentionally drifting out of its lane. If the vehicle passes over a solid line, or a dashed line when opposing traffic is detected, this system can pull the vehicle back into its lane by applying the brakes on one side
 - **PRE-SAFE® Sound** emits a short interference signal if an imminent collision is detected, triggering a protective reflex in the human ear referred to as the "stapedius reflex," which can help reduce hearing loss in the event of an accident
 - **PARKTRONIC with Active Parking Assist** and 360° camera system make it possible to enter and leave parallel and end-on parking spaces automatically.
- **DIGITAL Light:** HD system with projection module (more than 1 million pixels per headlamp), which uses data from the camera, sensors and the navigation system to calculate the brightness value for each individual pixel in near real time
- **GUARD 360 (available with Exclusive and Pinnacle Trim):** In addition to the features included with the standard Parking Damage Detection, Guard 360 visualizes the surroundings of the parked vehicle, for example if a collision has been detected. All the cameras of the 360° camera system are triggered. The resulting images are time-stamped. These images can be viewed in the central display as well as in the Mercedes me App and can then be used for further analysis purposes.
-

Model Positioning

The GLC Coupe builds off the successful GLC SUV by skillfully and intricately combining the sportiness of a coupe with the functionality of an SUV. The GLC Coupe embodies elegance, dynamism and off-road adventure. Striking proportions, dramatic surfaces and precisely shaped edges define the distinctive design, complemented by a high quality interior.

At a Glance

	GLC 300 4MATIC Coupe
MSRP	\$TBA*
