

Quick Reference Guide

MY24 eSprinter

Models & MSRP*

- | | |
|-----------------------------|-------------------------|
| ▪ Cargo Van Standard Output | \$71,886 ^{1,2} |
| ▪ Cargo Van High Output | \$75,316 ^{1,2} |

Standard Feature Highlights

- New thermal management with higher efficiency with pre-conditioning options
- New permanent-magnet synchronous motor with higher efficiency
- High regeneration performance with a variety of modes (e.g. Regeneration Braking D-Auto)
- Eco-Assist
- 113 kwh usable Battery capacity
- CCS charging system
 - AC Charging 9.6 KW
 - DC Fast Charging 50 KW
- Electric Parking Brake
- Mercedes me connect service bundle “Optimized Assistance” standard with 12 month complimentary runtime. “Efficient Fleet Management” and “Data interfaces for Vans” with trial period
- Active Brake Assist
- Heated driver seat
- Multifunction Steering Wheel (e.g. recuperation mode settings)
- Remote EV Services (cabin convenience pre-conditioning)
- Electrically Adjustable Side Mirrors
- Cruise Control
- Keyless start
- Hold Function
- Charging capabilities with 2 USB-C sockets in the dashboard
- Trailer hitch prep wiring package
- Load-adaptive electronic stability program
- All-season tires
- Adjustable steering wheel (angle) with standard shift paddles
- Load compartment volume of up to 488 cu. Ft.
- Front, Side Thorax-Pelvis and Window Airbags

Optional Feature Highlights

- Mercedes-Benz User Experience (MBUX) with 10.25” Touchscreen
- DC Fast Charging 115kW
- Digital rear view mirror
- High performance air-condition
- Electrical sliding door
- Robust, washable paneling on the load compartment walls
- eXpertUpfitter solutions offers for the load compartment to be individualized with shelving systems, a workbench or heavy-duty wood floors for heavy loads.

¹ Above price excludes \$2,295 delivery & destination charge.

² Until further notice, eSprinter orders require customers to select a partition wall and a floor option during the new model launch phase. The displayed base price does not include this equipment.

- Optional lightweight plastic floor
- Heated and pivoting power front seats
- Reinforced seat bases with three-point seat belt
- Heated windshield
- Electrically folding exterior mirrors
- Anti-theft alarm system
- Automatic climate control
- Heated Steering Wheel

Technical Highlights

- **Mercedes-Benz User Experience (MBUX):** A new multimedia system featuring innovative technology based on Artificial Intelligence and an intuitive operating system. MBUX technology is pioneering a new level of in-car experience. MBUX can be operated by Voice Control, the Touchscreen, Touchpad and Touch Control Buttons on the steering wheel. The system has learning capabilities and intelligent Voice Control with natural language understanding and a verbal cue of "Hey Mercedes". New generation offering an extended range of options bringing in greater vehicle control, EV specific functions and increased comfort.
- **Digital rear view mirror:** To improve the view to the rear, a camera is installed at the rear of the vehicle and the image is displayed on the screen of the interior mirror. With the interior mirror, the driver has a clear rear view. This solution has a high benefit for customers with no or limited rear view.
- **BLIND SPOT ASSIST:** With rear cross traffic alert (RCTA) recognizes vehicles in the blind spot using two short-range radar sensors located in the rear bumper. The detection area extends from the B-pillar approximately 11 feet to each side of the vehicle and 9 feet behind the rear end.
- **CROSSWIND ASSIST:** Detects strong gusts of crosswind and helps the driver to stay on course. At speeds over 50 mph it corrects the vehicle's course by means of automatic braking intervention on the wheels on the side of the vehicle facing the wind.
- **ATTENTION ASSIST:** Gives the driver visual and acoustic warnings if it detects typical signs of drowsiness or inattention, and urges the driver to take a break. Steering wheel movements are recorded and used to create an individual driver profile.
- **Active Brake Assist with Cross-Traffic Function** continuously checks the safe distance to the vehicle immediately in front, warns the driver optically and acoustically of potential collisions and autonomously brakes the vehicle to a full stop if required.
- **Touch Control Buttons:** touch-sensitive controls on the steering wheel for instrument cluster and infotainment system control, similar to a smart-phone interface, which respond to vertical and horizontal swiping movements
