- Hold Function
- Integrated Navigation system
- Digital Interior mirror

Metris Getaway Additional Optional Feature Highlights

- Off-Grid Power and Portable Solar Panels
- 8' Awning
- Roof Racks
- Pullout Rear Kitchen

Technical Highlights

- **Active Distance Assist DISTRONIC®:** A radar-based adaptive cruise control system that is able to automatically adjust your set speed for traffic ahead through braking and accelerating, in order to maintain a safe distance.
- **Touchscreen Display Head-Unit:** New 7-inch touchscreen display with a resolution of 800 x 480 pixels including anti-glare gorilla glass, Bluetooth, Sirius XM Radio, USB port along with Apple Carplay and Android Auto
- **BLIND SPOT ASSIST:** Now with rear cross traffic alert (RCTA), recognizes vehicles in the blind spot using two short-range radar sensors located in the rear bumper. The detection area extends from the B-pillar approximately 11 feet to each side of the vehicle and 9 feet behind the rear end.
- **CROSSWIND ASSIST:** Detects strong gusts of crosswind and helps the driver to stay on course. At speeds over 50 mph it corrects the vehicle's course by means of automatic braking intervention on the wheels on the side of the vehicle facing the wind.
- **ATTENTION ASSIST:** Gives the driver visual and acoustic warnings if it detects typical signs of drowsiness or inattention, and urges the driver to take a break. Steering wheel movements are recorded and used to create an individual driver profile.
- **Active Brake Assist:** Continuously checks the safe distance to the vehicle immediately in front, warns the driver optically and acoustically of potential collisions and autonomously brakes the vehicle to a full stop if required at speeds up to 124 mph.
- **Digital Mirror:** The rear image of the camera is shown on the rearview mirror. The mirror can be switched between normal function and digital function with camera imaging.
