

Quick Reference Guide

2022 Mercedes-Benz E-Class All-Terrain

Models & MSRP

- Mercedes-Benz E 450 4MATIC All-Terrain \$68,400

**Above price excludes \$1,050 destination & delivery charge*

What's New for MY22

- Adaptive Highbeam Assist now standard
- Nautical Blue Metallic paint now available

E-Class All-Terrain Standard Feature Highlights

- MBUX Infotainment system new-generation Voice Control, including Natural Language Understanding and Keyword Activation ("Hey Mercedes")
- MBUX Navigation
- 12.3" Digital Instrument Cluster & 12.3" Touchscreen Multimedia Display
- 64-color Ambient Lighting
- Heated front seats
- LED Headlamps and Taillamps
- KEYLESS-START®
- KEYLESS-GO®
- Smartphone Integration with Apple CarPlay and Android Auto
- New-generation Multifunction Steering Wheel with Touch Control Buttons and Galvanized Shift Paddles
- New-generation touchpad
- Storage Package
- DYNAMIC SELECT with Offroad and Offroad+ driving modes
- 19" wheels with all-season run-flat tires
- Active Brake Assist
- ATTENTION ASSIST®
- Blind Spot Assist
- Car-to-X Communication
- Crosswind Assist
- Parking Damage Detector
- PRE-SAFE® and PRE-SAFE Sound
- Memory Package (driver and passenger seat)

E-Class All-Terrain Optional Feature Highlights

- Night Package
- Active multicontour front seats with massage feature
- Augmented Video for Navigation
- MBUX Interior Assistant
- Head-Up Display
- Surround View Camera
- PARKTRONIC with Active Parking Assist
- Exterior Lighting Package with Adaptive Highbeam Assist and LED Intelligent Light System
- Driver Assistance Package
- Burmester® Surround Sound System
- Inductive Wireless Charging & NFC Pairing

- Panorama Sunroof
- Heated and ventilated front seats
- LED logo projectors
- Heated Steering Wheel
- 20" AMG Wheels

E-Class Technical Feature Highlights

- **Mercedes-Benz User Experience (MBUX):** A revolutionary multimedia system featuring innovative technology based on Artificial Intelligence and an intuitive operating system. MBUX is pioneering a new level of in-car experience. The system can be operated by a new generation of Voice Control, the center touchscreen, a new Touchpad, and/or by the Touch Control Buttons on the steering wheel. The system has learning capabilities and intelligent Voice Control with Natural Language Understanding and a verbal cue of "Hey Mercedes."
 - **with Augmented Video Navigation (available),** when the navigation function is active, a video image of the surroundings is enhanced with arrows or house numbers automatically superimposed directly onto the image in the media display.
 - **MBUX Interior Assistant (available),** allows intuitive, natural operation of various comfort and MBUX functions through movement recognition.
- **Driver Assistance Systems:** The E-Class receives the latest in driver assistance technology including intelligent hands-off detection. The available Driver Assistance Package includes:
 - **Active Distance Assist DISTRONIC®** is an adaptive cruise control system that is able to automatically adjust your set speed for traffic ahead
 - **with Route-Based Speed Adaptation,** the vehicle is able to reduce the speed in anticipatory mode by referencing map data ahead of curves, junctions, roundabouts, toll booths and exit roads.
 - **with LiveTraffic and End-of-Traffic-Jam Assist,** the vehicle can recognize and respond to traffic jams and slow-moving traffic even before the driver becomes aware of them. Once traffic is detected, the speed is reduced to approx. 60 mph as a precaution unless the driver decides otherwise.
 - **Active Stop-and-Go Assist,** is able to keep the vehicle within the lane and maintain a safe distance with a high level of availability at speeds up to 35 mph. With the extended restart function, the vehicle can restart automatically up to one minute after coming to a stop.
 - **Active Steering Assist** generates steering torque which helps the driver to stay in the center of the lane on straight roads and slight bends, taking its guidance from vehicles ahead and lane markings
 - **with Active Emergency Stop Assist,** which brakes the vehicle to a stop in a controlled manner when the system recognizes that the driver is distracted for a longer period or cannot intervene in vehicle control
 - **and Active Lane Change Assist,** which assists the driver in a convenient and cooperative manner when making lane changes.
 - **Active Brake Assist with Cross-Traffic Function** is able to help the driver avoid impending collisions with vehicles ahead or when turning off across the oncoming lane, the system will also assist with stationary or crossing vehicles and pedestrians, if the driver fails to take action quickly enough.
 - **Active Speed Limit Assist with Traffic Sign Assist** utilizes map data and information from Traffic Sign Assist to automatically adapt the vehicle's speed.
 - **Active Blind Spot Assist** is able to provide the driver with a visual alert, plus an audible alarm when a turn indicator is activated, to warn the driver if another vehicle is detected in the blind spot area. It can also help avoid a collision by single-sided braking if a lane change is still attempted with an obstacle in the blind spot.
 - **With Exit Warning** offers enhanced protection when getting out of the car, a visual warning for passengers displayed in the exterior mirror if a car or bicycle is driving past the vehicle. If the driver tries to open the door, an additional audible warning sound and ambient door lighting will start to flash red.

- **Active Lane Keeping Assist** is able to warn the driver by means of vibrations of the steering wheel when the vehicle is unintentionally drifting out of its lane. If the vehicle passes over a solid line, or a dashed line when opposing traffic is detected, this system can pull the vehicle back into its lane by applying the brakes on one side.
- **Active Parking Assist with PARTRONIC** and 360° camera make it possible to enter and leave parallel and end-on parking spaces or garages automatically.
- **PRE-SAFE® PLUS with PRE-SAFE® Sound** activates the PRE-SAFE safety measures when a collision from behind is imminent as well as applying the brakes when the vehicle is at a standstill in order to prevent subsequent accidents. PRE-SAFE® Sound emits a short interference signal if an imminent collision is detected, triggering a protective reflex in the human ear referred to as the “stapedius reflex,” which can help reduce hearing loss in the event of an accident.

Model Positioning

- With over 14 million units delivered globally since 1946, the E-Class is the best-selling model series in the history of Mercedes-Benz and is perceived by many as the "heart of the brand." The tenth generation of the E-Class set styling trends in 2016 with its clean yet emotionally appealing design and exclusive high-quality interior. A wealth of innovations, such as the driving assistance systems, were also defining characteristics. With its recent redesign, the E-Class continues to set the benchmark for intelligence within the Mercedes-Benz lineup through top levels of comfort, luxury and safety.

At a Glance

	E 450 4MATIC All-Terrain
MSRP	\$68,400
