

Quick Reference Guide

2022 Mercedes-Benz C-Class Sedan

Models & MSRP

- | | | |
|------------------------------------|-----------|--|
| ▪ Mercedes-Benz C 300 Sedan | \$43,550* | arriving at U.S. dealers in spring of 2022 |
| ▪ Mercedes-Benz C 300 4MATIC Sedan | \$45,550* | arriving at U.S. dealers in spring of 2022 |
- *Above prices exclude \$1,050 destination & delivery charge*

What's New

- Freestanding 12.3" digital instrument panel and all-new 11.9" central touchscreen multimedia display completes progressive and modern interior design. Adopted from the S-Class, its portrait orientation is particularly advantageous for full-screen navigation, further enhancing the driver experience
- As an exclusive new C-Class feature, the central display is slightly tilted towards the driver by six degrees for the first time, underlining the sporty and dynamic driver-centered design and performance of the C-Class
- The driver display and media display offer a holistic, aesthetic experience and the look of the screens can be individualized with three display styles (Sporty, Classic, Understated) and three modes (Navigation, Assistance, Service)
- New sporty appearance with "cab backward" design, power domes on hood and aggressive A-shaped grille
- For the first time on the C-Class, the redesigned tail lamps have a two-piece design
- Redefined dimensional concepts (increased length by 2.6", width by 0.47", wheelbase by 0.98" and track width) allow for greater freedom of movement for driver and passengers (increased rear legroom by 0.79")
- New, more powerful, electrified four-cylinder engine with integrated starter generator and 48-volt onboard electrical system now standard in C 300 models (+22 lb-ft of torque compared to predecessor) – the first four-cylinder gasoline engine in the Mercedes-Benz lineup with this technology
- Interior design represents the latest interpretation of modern luxury and adopts highlights from the new S-Class, including the newly designed dashboard that showcases an opulent expanse of trim that flows seamlessly from the center console to the dashboard
- New-generation Mercedes-Benz User Experience (MBUX) infotainment system with advanced Voice Control ("Hey Mercedes") and significantly more processing power compared to the previous version of MBUX, and available MBUX Augmented Video for Navigation
- Next level of Intelligent Drive and available driver assistance systems reduce workload in day-to-day situations for more comfortable and safe driving
 - Active Distance Assist DISTRONIC can automatically maintain a preset distance from vehicles ahead. One new feature is the response to stationary vehicles on the road at speeds up to approximately 62 mph (previously 37 mph)
 - Active Steering Assist helps the driver to stay in lane at speeds up to 130 mph. New features include additional lane recognition with the 360° camera, significantly improved availability and performance in bends on country roads and improved lane centering on highways
 - Active Stop-and-Go Assist is newly available and can provide semi-autonomous support in traffic jams at speeds up to 37 mph
- The 4MATIC all-wheel drive system has been advanced with new front-axle drive that allows higher torque levels to be transferred with an ideal axle load distribution for improved driving dynamics
- Through optimized packaging and engineering, the standard 9G-TRONIC 9-Speed automatic transmission was developed to be smaller, 30% lighter and more efficient
- New exterior paint, upholstery, trim and wheel options

C-Class Sedan Trim Feature Highlights

▪ Premium Trim (standard)

- New-generation MBUX Infotainment system with Voice Control, including AI Natural Language Understanding and Keyword Activation (“Hey Mercedes”)
- New 11.9” Center Touchscreen Display & 12.3” Digital Instrument Cluster
- Fingerprint Sensor for biometric authentication of the driver to activate profile
 - MBUX profile can also be activated via voice control
- Multifunction Leather Steering Wheel with Capacitive Touch Control Buttons
- Heated Front Seats with Memory and Lumbar Support
- LED Intelligent Light System with Adaptive Highbeam Assist
- LED Taillamps
- KEYLESS-START®
- KEYLESS-GO®
- Wireless Smartphone Integration with Apple CarPlay and Android Auto
- DYNAMIC SELECT
- Blind Spot Assist
- PRE-SAFE®
- ATTENTION ASSIST
- Active Brake Assist
- Parking Damage Detection System
- Sunroof
- 18” Wheels
- Optional Feature Highlights include:
 - Nappa Leather Upholstery
 - Driver Assistance Package
 - AMG Line with Night Package
 - DIGITAL LIGHT Intelligent Lighting System with Adaptive Curve Illumination
 - MB Navigation
 - Ventilated Seats
 - Panorama Roof
 - Heated Steering Wheel
 - Advanced USB Package with additional USB data ports in front and rear, including 100W ports for quick and powerful charging
 - SiriusXM® Satellite Radio

▪ Exclusive Trim

- All content of Premium Trim
- PARKTRONIC with Active Parking Assist
- Surround View System with Guard 360° security functionality
- Enhanced Ambient Lighting
- Illuminated Door Sills
- Inductive Wireless Charging
- Burmester® 3D Surround System with Sound Personalization
- Optional Feature Highlights include:
 - Nappa Leather Upholstery
 - Driver Assistance Package
 - AMG Line with Night Package
 - DIGITAL LIGHT Intelligent Lighting System with Adaptive Curve Illumination
 - MB Navigation
 - Ventilated Seats
 - Panorama Roof
 - Heated Steering Wheel
 - Advanced USB Package
 - SiriusXM® Satellite Radio

- **Pinnacle Trim**
 - All content of Exclusive Trim
 - MB Navigation
 - Head-Up Display
 - MBUX Augmented Video for Navigation
- Optional Feature Highlights include:
 - Nappa Leather Upholstery
 - Driver Assistance Package
 - AMG Line with Night Package
 - DIGITAL LIGHT Intelligent Lighting System with Adaptive Curve Illumination
 - Dashcam
 - Ventilated Seats
 - Panorama Roof
 - Heated Steering Wheel
 - Advanced USB Package
 - SiriusXM® Satellite Radio

C-Class Technical Feature Highlights

- **48-volt on-board electrical system technology** (standard): The engines found in the C 300 and C 300 4MATIC are supplemented with a powerful and efficient Integrated Starter Generator (ISG). This integrated electric motor system assists the combustion engine by adding up to 20 hp and 148 lb-ft of torque for short periods of time. The ISG also assists when accelerating, making driving without the combustion engine turned on possible ("sailing"), and supplies the battery with power by means of high-efficiency recuperation. By doing so, it makes fuel savings possible that were previously the exclusive domain of high-voltage hybrid technology.
- **Mercedes-Benz User Experience** (MBUX; standard): A revolutionary multimedia system featuring innovative technology based on Artificial Intelligence and an intuitive operating system, MBUX is pioneering a new level of in-car experience. The system can be operated by a new generation of Voice Control, the center touchscreen, and/or by the Touch Control Buttons on the steering wheel. The system has learning capabilities and intelligent Voice Control with Natural Language Understanding and activates upon a verbal cue of "Hey Mercedes."
 - **Augmented Video for Navigation** (optional): When the navigation function is active, a video image of the surroundings is enhanced with arrows or house numbers automatically superimposed directly onto the image in the media display.
- **Driver Assistance Systems** (optional): The C-Class is available with the latest driver assistance technology including intelligent hands-off detection. The Driver Assistance Package includes:
 - **Active Distance Assist DISTRONIC** is an adaptive cruise control system that is able to automatically adjust your set speed for traffic ahead.
 - **with Route-Based Speed Adaptation:** the vehicle is able to reduce the speed in anticipatory mode by referencing map data ahead of curves, junctions, roundabouts, toll booths and exit roads.
 - **Active Stop-and-Go Assist** is able to keep the vehicle within the lane and maintain a safe distance with a high level of availability at speeds up to 37 mph. With the extended restart function, the vehicle can restart automatically up to one minute after coming to a stop.
 - **Active Steering Assist** generates steering torque which helps the driver to stay in the center of the lane on straight roads and slight bends, taking its guidance from vehicles ahead and lane markings. The performance of Active Steering Assist has been enhanced to the same level as the S-Class.
 - **with Active Emergency Stop Assist:** brakes the vehicle to a stop in a controlled manner when the system recognizes that the driver is distracted for a longer period or cannot intervene.
 - **and Active Lane Change Assist:** assists the driver in a convenient and cooperative manner when making lane changes.

- **Active Brake Assist with Cross-Traffic Function** is able to help the driver avoid impending collisions with vehicles ahead, or when turning across the oncoming lane, the system will also assist with stationary or crossing vehicles and pedestrians, if the driver fails to take action quickly enough.
 - **Turn-off function of Active Brake Assist:** activation of Active Brake Assist with Cross-Traffic Assist when turning across the opposite lane. If there is a risk of collision when turning across the path of oncoming vehicles, the vehicle will be braked when traveling at low speeds.
- **Active Speed Limit Assist with Traffic Sign Assist** utilizes map data and information from Traffic Sign Assist to automatically adapt the vehicle's speed.
- **Active Blind Spot Assist** is able to provide the driver with a visual alert, plus an audible alarm when a turn indicator is activated, to warn the driver if another vehicle is detected in the blind spot area. It can also help avoid a collision by single-sided braking if a lane change is still attempted with an obstacle in the blind spot.
 - **with Exit Warning:** offers enhanced protection when getting out of the car, a visual warning for passengers displayed in the exterior mirror if a car or bicycle is driving past the vehicle. If the driver tries to open the door, an additional audible warning sound and ambient door lighting will start to flash red.
- **Active Lane Keeping Assist** is able to warn the driver by means of vibrations of the steering wheel when the vehicle is unintentionally drifting out of its lane. If the vehicle passes over a solid line, or a dashed line when opposing traffic is detected, this system can pull the vehicle back into its lane by applying the brakes on one side.
- **Car-to-X Communication** is a system in which the vehicle simultaneously acts as a receiver and transmitter, conveying warning messages and evaluating driving conditions, effectively allowing the driver to “see” much further down the road.
- **PARKTRONIC with Active Parking Assist** and 360° camera system make it possible to enter and leave parallel and end-on parking spaces automatically.
- **PRE-SAFE® PLUS with PRE-SAFE® Sound** activates the PRE-SAFE® safety measures when a collision from behind is imminent as well as applying the brakes when the vehicle is at a standstill in order to prevent subsequent accidents. PRE-SAFE® Sound emits a short interference signal if an imminent collision is detected, triggering a protective reflex in the human ear referred to as the “stapedius reflex,” which can help reduce hearing loss in the event of an accident.
- **Dashcam** (optional with Pinnacle Trim): Using the camera in the windshield, the dashcam films and saves what’s happening on the road in front of your vehicle, including the time and speed, helping to document a sequence of events and protect drivers in the event of an accident. The dashcam’s resolution of 1280 x 720 pixels and a frame rate of 30 Hz also allows for the driver to use the dashcam as a recording device to film landscapes and routes for video documentation.

Model Positioning

- The Mercedes-Benz C-Class sets the benchmark in its class, and the new generation model will reinforce its leading position as the most advanced vehicle in its segment by showcasing a new progressive interior and sporty exterior design, an electrified engine, innovative comfort features and groundbreaking technology. The C-Class Sedan is also the first vehicle in the Mercedes-Benz lineup to debut the new four-cylinder engine with an integrated starter generator and 48-volt technology that offers increased efficiency, comfort and performance.

At a Glance

	C 300 Sedan	C 300 4MATIC Sedan
MSRP	\$43,550*	\$45,550*
Length	187.0"
