- Mercedes-Benz User Experience (MBUX) with Voice Control
- 7" Digital Instrument Cluster and 7" Touchscreen Multimedia Display
- Panorama Roof
- LED headlamps and taillamps
- Smartphone Integration with Apple CarPlay and Android Auto
- 64-color Ambient Lighting
- Touchpad
- 18" Wheels
- DYNAMIC SELECT
- KEYLESS-START
- Dual-Zone Climate Control
- Multifunction Steering Wheel with shift paddles
- Blind Spot Assist
- Cruise Control
- Active Brake Assist
- Adaptive Braking Technology with Hill Start Assist and HOLD function

AMG A 35 Standard Feature Highlights - includes features listed above

- AMG-enhanced 2.0L Inline-4 Turbo Engine
- 10.25" Digital Instrument Cluster and 10.25" Touchscreen Multimedia Display
- AMG Performance 4MATIC
- AMG Sport Suspension
- Panorama Roof
- 18" AMG wheels
- AMG DYNAMIC SELECT

A-Class Optional Feature Highlights

- 10.25" Digital Instrument Cluster and 10.25" Touchscreen Multimedia Display
- Driver Assistance Package
- Parking Assistance Package
- Multimedia Package with MB Navigation and Augmented Video
- MBUX Interior Assistant
- Exterior Lighting Package

- AMG Line
- Night Package
- Burmester® Premium Sound System
- KEYLESS-GO® with Hands-Free Access
- Heated Front Seats
- Multicontour seats
- Heated Steering Wheel
- Dynamic Body Control
- Head-Up Display
- Inductive Wireless Charging
- Heated and Ventilated seats

AMG A 35 Optional Feature Highlights - includes features listed above

- AMG Aerodynamics Package
- AMG Night Package

A-Class Technical Highlights:

- **Mercedes-Benz User Experience (MBUX):** A completely new multimedia system featuring innovative technology based on Artificial Intelligence and an intuitive operating system. MBUX technology is pioneering a new level of in-car experience. MBUX can be operated by Voice Control, the Touchscreen (a first for Mercedes-Benz vehicles), Touchpad and Touch Control Buttons on the steering wheel. The system has learning capabilities and intelligent Voice Control with natural language understanding and a verbal cue of “Hey Mercedes.”
 - **MBUX Interior Assistant** can recognize hand and arm movements and support operating intentions by allowing intuitive, natural operation of different comfort and MBUX functions by movement recognition.
 - **Touchscreen Multimedia Display:** Central to the comprehensive MBUX concept is a touchscreen display
- **Driver Assistance Systems:** The A-Class is available with the latest driver assistance technology with enhanced intelligent hands-off detection which includes sensing via finger pads and is sensitive to specific conditions. The Driver Assistance Package includes:
 - **Active Distance Assist DISTRONIC®** is an adaptive cruise control system that is able to automatically adjust your set speed for traffic ahead
 - **with Route-Based Speed Adaptation**, the vehicle is able to reduce the speed in anticipatory mode by referencing the COMAND® map data ahead of curves, junctions, roundabouts, toll booths and exit roads
 - **Active Steering Assist** generates steering torque which helps the driver to stay in the center of the lane on straight roads and slight bends, taking its guidance from vehicles ahead and lane markings
 - **with Active Emergency Stop Assist**, which brakes the vehicle to a stop in a controlled manner when the system recognizes that the driver is distracted for a longer period or cannot intervene in vehicle control **and Active Lane Change Assist**, which assists the driver in a convenient and cooperative manner when making lane changes
 - **Active Brake Assist with Cross-Traffic Function** is able to help the driver avoid impending collisions with vehicles ahead, even stationary or crossing vehicles and pedestrians, if the driver fails to take action quickly enough
 - **Active Speed Limit Assist** automatically adapts the vehicle's speed to identified speed limits in conjunction with COMAND® Navigation
 - **Active Blind Spot Assist** is able to provide the driver with a visual alert, plus an audible alarm when a turn indicator is activated, to warn the driver if another vehicle is detected in the blind spot area. It can also help avoid a collision by single-sided braking if a lane change is still attempted with an obstacle in the blind spot

- **Active Lane Keeping Assist** is able to warn the driver by means of vibrations of the steering wheel when the vehicle is unintentionally drifting out of its lane. If the vehicle passes over a solid line or a dashed line when opposing traffic is detected, this system can pull the vehicle back into lane by applying the brakes on one side
- **PRE-SAFE® Brake with Pedestrian Recognition** can sense an impending collision before it happens and take measures to apply full-power braking automatically in emergencies to protect occupants and reduce the severity of an accident
- **PRE-SAFE® PLUS** activates the PRE-SAFE safety measures when a collision from behind is imminent as well as applying the brakes when the vehicle is at a standstill in order to prevent subsequent accidents

Model Positioning

- The A-Class Sedan represents the new gateway for the Mercedes-Benz brand. The A-Class was the first vehicle from Mercedes-Benz to introduce a revolutionary headunit generation called MBUX (Mercedes-Benz User Experience) with a completely new user interface, natural speech recognition, touchscreen capabilities and a new Touchpad. The new A-Class boasts all of the virtues of the new compact-car family with high levels of safety and the latest Mercedes-Benz design language.
- The AMG A 35 Sedan is an ideal introduction to the world of AMG Driving Performance. Powered by a new developed AMG-enhanced 2.0L Inline-4 Turbo producing 302 hp, the new A 35 boasts all of the virtues of the new-generation compact-car family with high levels driving enjoyment, performance and sporty appeal.
