

Quick Reference Guide

New Sprinter (VS30)

Base Diesel Models & MSRP

▪ Cargo Vans	\$39,790
▪ Crew Vans	\$46,090
▪ Passenger Vans	\$48,990
▪ Cab Chassis	\$39,790

Base Gasoline Models & MSRP

▪ Cargo Vans	\$33,790
▪ Crew Vans	\$41,290
▪ Passenger Vans	\$42,990
▪ Cab Chassis	N/A

What's New

- Mercedes-Benz User Experience (MBUX) with optional 7" or 10.25" Touchscreen Multimedia Display
- Gasoline option for 1500 and 2500 Cargo, Crew and Passenger Vans
- 15 seats for 14 passengers plus the driver available for Passenger Vans
- Increased GVWR on 2500 and new 4500 models
- 7-gear transmission standard on 6-cylinder Diesel
- Window and thorax-pelvis airbag now also standard on all Cab Chassis
- Increased visibility with LED headlights and taillights
- Mercedes PRO connect optional packages: Optimized Assistance, Efficient Fleet Management, Data Interfaces for Vans
- Increased cargo space and usability with loadable wheel arches, interior roof rack and shelf above roof trim
- Rain sensor with an integrated Wet Wiper system
- Improved heating and cooling
- Variable stowage concept

Standard Feature Highlights

- Mercedes PRO connect service bundle "Optimized Assistance" standard with 36 month complimentary runtime. "Efficient Fleet Management" and "Datainterfaces for Vans" with trial period.
- Keyless start
- Increased powertrain warranty
- Hold Function
- Charging capabilities with 2 USB-C sockets in the dashboard
- Passenger vans include USB-C charging capabilities in the rear
- Trailer hitch prep package
- Red diesel tank filler cap
- Load-adaptive electronic stability program
- All-season tires
- Adjustable steering wheel (angle) with standard shift paddles
- Wheelbases of up to 170" along with overhang available for the 170" EXT wheelbase for even more cargo space

- Load compartment volume of up to 533 cu. Ft.
- Loading width of around 61”
- Metal load compartment floor (Cargo Vans)
- Front, Side Thorax-Pelvis and Window Airbags

Optional Feature Highlights

- Reclinable seats offered in the passenger van
- Power front seats
- High performance air-condition
- Electrical sliding door and step
- Robust, washable paneling on the load compartment walls
- MasterUppfitter solutions offers for the load compartment to be individualized with shelving systems, a workbench or heavy-duty wood floors for heavy loads.
- Optional lightweight plastic floor
- Heated and pivoting power luxury seats
- Reinforced seat bases with three-point seat belt
- Heated windshield
- Optional all-wheel drive
- "Hibernation Mode" available for all variants
- Heated, electrically adjustable and foldable exterior mirrors
- Anti-theft alarm system
- Automatic climate control

Technical Highlights

- **Mercedes-Benz User Experience (MBUX):** A completely new multimedia system featuring innovative technology based on Artificial Intelligence and an intuitive operating system. MBUX technology is pioneering a new level of in-car experience. MBUX can be operated by Voice Control, the Touchscreen, Touchpad and Touch Control Buttons on the steering wheel. The system has learning capabilities and intelligent Voice Control with natural language understanding and a verbal cue of "Hey Mercedes" or "Hey Sprinter" for Freightliner models.
- **DISTANCE REGULATOR DISTRONIC® PLUS** is able to follow a vehicle in front at a pre-selected distance at wide range of speeds and relieves driver strain on long journeys and when following vehicles.
- **BLIND SPOT ASSIST** Now new with rear cross traffic alert (RCTA), recognizes vehicles in the blind spot using two short-range radar sensors located in the rear bumper. The detection area extends from the B-pillar approximately 11 feet to each side of the vehicle and 9 feet behind the rear end.
- **ACTIVE LANE KEEPING ASSIST** is able to detect unintentional lane departure, warn the driver and help to guide the vehicle back into its lane with one-sided brake actuation.
- **PARK ASSIST:** Utilizes twelve radar sensors installed on the front and rear bumper. When the car's in reverse, Park Assist displays a top-view 360 degree pictogram of the car and parking space, providing helpful steering guidance.
- **TRAFFIC SIGN ASSIST:** draws additional attention to speed limits, no-entry and no-overtaking restrictions
- **CROSSWIND ASSIST:** Detects strong gusts of crosswind and helps the driver to stay on course. At speeds over 50 mph it corrects the vehicle's course by means of automatic braking intervention on the wheels on the side of the vehicle facing the wind.
- **ATTENTION ASSIST:** Gives the driver visual and acoustic warnings if it detects typical signs of drowsiness or inattention, and urges the driver to take a break. Steering wheel movements are recorded and used to create an individual driver profile.
- **Active Brake Assist with Cross-Traffic Function** continuously checks the safe distance to the vehicle immediately in front, warns the driver optically and acoustically of potential collisions and autonomously brakes the vehicle to a full stop if required.

- **Car-to-X communication:** One of the new Mercedes PRO connect services. Receive a warning in your new Sprinter with Car-to-X communication if there is heavy rain, fog, icy roads, or accidents ahead. Based on automatically collated data from all the vehicles using this technology, drivers get notifications when other drivers encounter a hazardous condition.
- **Internet in the Car** The driver and passengers can use the multimedia system's Wi-Fi hotspot to easily go online with mobile devices. The Internet in the Car service requires a Mercedes PRO account, additionally a contract must be made with a 3rd party mobile network operator.
- **Touch Control Buttons:** touch-sensitive controls on the steering wheel for instrument cluster and infotainment system control, similar to a smart-phone interface, which respond to vertical and horizontal swiping movements.

6-cyl. Diesel Options at a Glance

	Cargo Vans	Crew Vans	Passenger Vans	Cab Chassis
Starting MSRP	\$39,790	\$46,090	\$48,990	\$39,790
