

The 2019 Mercedes-Benz E-Class Family

Press Information

Mercedes-Benz E-Class Family Receives New Engine & Improved Performance for 2019

May 23, 2018

Atlanta. At its introduction in 2016, the new generation Mercedes-Benz E-Class family marked the world premiere of numerous technical innovations, enabling enhanced comfort, a new level of intelligent drive and a new infotainment and control system. For the 2019 model year, Mercedes-Benz will introduce two new model designations to the E-Class lineup with E 450 and E 450 4MATIC variants. The new E 450 model designation for the E-Class Sedan, Coupe, Cabriolet and Wagon will also receive a more powerful engine. The 2019 Mercedes-Benz E-Class models will go on sale in the U.S. in fall 2018.

More powerful, more efficient engines

The 2019 Mercedes-Benz E 450 and E 450 4MATIC models will be equipped with an upgraded 3.0-liter V6 biturbo engine that generates an additional 33 hp (now 362 hp vs. previous 329 hp) and 15 lb-ft of torque (now 369 lb-ft vs. previous 354 lb-ft) than its predecessor. The 2019 E 450 4MATIC Sedan and Wagon, and E 450 and E 450 4MATIC variants of the Coupe and Cabriolet will replace the current E 400 and E 400 4MATIC variants to reflect its new features.

Intelligent Drive: state-of-the-art active safety

When the new-generation Mercedes-Benz E-Class family launched in the U.S. market in 2016, it introduced a new dimension in driver assistance and safety systems. In 2017, the redesigned Mercedes-Benz S-Class family showcased new and considerably enhanced driver assistance features. For 2019, the E-Class family will benefit from these enhanced safety systems and route-based speed adaptation, which uses a substantially broader scope of map and navigation data to more safely navigate different driving roads and situations.

The E-Class family will receive additional changes, both inside and out, for 2019, including a new 3-spoke Nappa Leather multifunction steering wheel that allows the driver to operate all safety assistance systems without ever removing their hands from the steering wheel, two additional trim options with matching center consoles, a new 19" AMG wheel available with Night Package and Rear Safety Package newly available on the E-Class Sedan.

The 2019 Mercedes-Benz E 450 and E 450 4MATIC models will go on sale in the U.S. in fall 2018. Additional information, including pricing, will be available closer to launch.

Overview of the 2019 Mercedes-Benz E-Class family variants:

	Mercedes-Benz E 300 and E 300 4MATIC Sedan
Engine	2.0L inline-4 turbo
